Subject: Storm water permit at naswi

I find it very unacceptable that epa has issued a permit with out any investigation.

This water that in the slough has been used for irrigation of our farms for years since before the military came here. I'm very concerned the pollution is also being pumped every day out to the sound where wa
. state has a salmon habit that cost tax payers over a million dollars.

Please get back to me as soon as possible I would like to discuss this matter with you. I'm very concerned as Naswi just dredge this slough. What did they stir up I would like to see the complete testing on this slough.

Thank you.
